

For what reasons could a theory be changed or replaced?

Scientists are likely to accept a new or modified theory if it explains everything the old theory did and more. The process of theory change may take time and involve controversy, but eventually the scientific explanation that is more accurate will be accepted.

Hope this helps

Suppose the length of two strings are 10 centimeter and 17 centimeter. Describe how the length of these two strings compare

202 tickets are sold. a child costs \$6 and an adult ticket costs \$10. How many tickets of each were sold if the receipts totaled \$1708?

Easy question PLZ HELP WILL GIVE BRAINLIEST Read this line from the poem.

A thousand martyrs I have made,

All sacrificed to my desire;

A thousand beauties have betrayed,

That languish in resistless fire.

The untamed heart to hand I brought,

And fixed the wild and wandering thought.

I never vowed nor sighed in vain
But both, though false, were well received.
The fair are pleased to give us pain,
And what they wish is soon believed.
And though I talked of wounds and smart,
Love's pleasures only touched my heart.

Alone the glory and the spoil
I always laughing bore away;
The triumphs, without pain or toil,
Without the hell, the heav'n of joy.
And while I thus at random rove
Despise the fools that whine for love.

Without the hell, the heav'n of joy. How do the images of hell and heaven in this line affect the meaning of the poem?

Which alkane would have a higher boiling point? a) ethane b) pentane c) heptane

Which sentence's style is appropriate for a job application?

Los estudiantes en el tour están aburridos. Ellos piensan que los museos son aburridos. Pero después, ellos están emocionados porque van a un concierto.
