What is one of the main differences between the phosphorus and sulfur cycles? A) Plants absorb phosphorus mainly from the air and sulfur mainly from the soil. B) Animals get phosphorus by eating plants and sulfur from the air they breathe. C) Human activities contribute only to the amount of sulfur in the atmosphere but not to that of phosphorus. D) The atmosphere has no significant role in the phosphorus cycle, but is an essential part of the sulfur cycle.

Read the following sentences: "When they figured out what was wrong, the New York City government, which was responsible for building the athletic center, quickly apologized to the residents of South Beach, Staten Island, for the annoying noise. They had not expected that the building would produce a whistling sound, and promised the problem would be quickly fixed when the building was completed and the acoustic baffles were protected from the wind." How did the residents of South Beach likely feel about this "solution"?

The marine biome ____.

- Which bill sought to prohibit discriminations in hotels, transportation services, and any facility that served the public? A. Tenure of Office act
B. Civil Rights Bill of 1875
C. Reconstruction Act
D. Fifteenth amendment

If a human diploid cell divides by meiosis to produce four sperm cells, each cell will have

Which event described in chapter 2 of the scarlet letter occurs when Hester leaves for jail

Which invention is Eli Whitney best known for

The measure of minor arc JL is 60° . Circle M is shown. Line segments MJ and ML are radii. Tangents JK and LK intersect at point K outside of the circle. Arc JL is 60 degrees.

What is the measure of angle JKL?

$$X - y = -4 \quad -2x + 3y = 6$$

What is the answer to $7y - 4.5 - 6y$

(01.02 MC) Which statement best explains the value of 12 ? (?4)

Monica has read $\frac{6}{8}$ of a book. She has read the same number of pages each day for 6 days. What fraction of the book does monica read each day?

An economy in which large raw material crops (e.g. cotton and tobacco) are grown and exported usually to Western Europe. The work is very labor intensive and many times involved slaves.

30 POINTS!!!! Which effects would most likely result from a tsunami? Check all that apply.

- 1) death
- 2) flooding
- 3) extinction
- 4) loss of homes
- 5) genetic change

PLEASE HELP! 30 points and will award brainliest! Find the value of x. Round to the nearest tenth. The diagram is not drawn to scale.

its a right triangle with sides X, 5, and a 25 degree angle.
