

Which of the following lines from Hamlet's "To be or not to be" soliloquy express his questions about what one experiences after death? Select all that apply

In play "Hamlet" by William Shakespeare, Hamlet's "To be or not to be" soliloquy express his questions about what one experiences after death. Hamlet is conflicted if he should continue living and suffering or kill himself and put an end to his suffering. He decides that he should continue to live on, a noble decision, because he doesn't know what death may bring. Comparing death to the sleep, Hamlet characterizes death as everlasting nightmare, which can be seen in third and fourth line: "The undiscovered country, from whose bourn / No traveller returns, puzzles the will" / "And makes us rather bear those ills we have / Than fly to others that we know not of?"

Both of these are the answers

1. "The undiscovered country, from whose bourn / No traveller returns, puzzles the will"
2. "And makes us rather bear those ills we have / Than fly to others that we know not of?"

The growing importance of one resource as demonstrated by the trend displayed in Source 1 is most similar to which early modern economic pattern? A) the global search for iron ore deposits
